Driving Industrial Excellence

Attri Auto Industries is a premier supply chain partner specializing in the wholesale and trade of high-grade automotive components and industrial machinery parts. Located in the industrial hub of Rohtak, we bridge the gap between premium manufacturing and industrial demand across diverse sectors.

Our Mission

Supply zero-defect components with just-in-time delivery precision

Core Competency

Wholesale trade of automotive spares, construction machinery parts, and specialized industrial equipment

Key Status

MSME Registered Enterprise (UDYAM-HR-16-0044771)

Comprehensive Product Solutions

We offer a diverse portfolio of components across three major industrial sectors, ensuring comprehensive supply chain coverage for your operational needs.

Automotive Components

Wholesale motor vehicle parts including fasteners, engine components, chassis parts, and precision hardware for passenger and commercial vehicles.

Construction Machinery

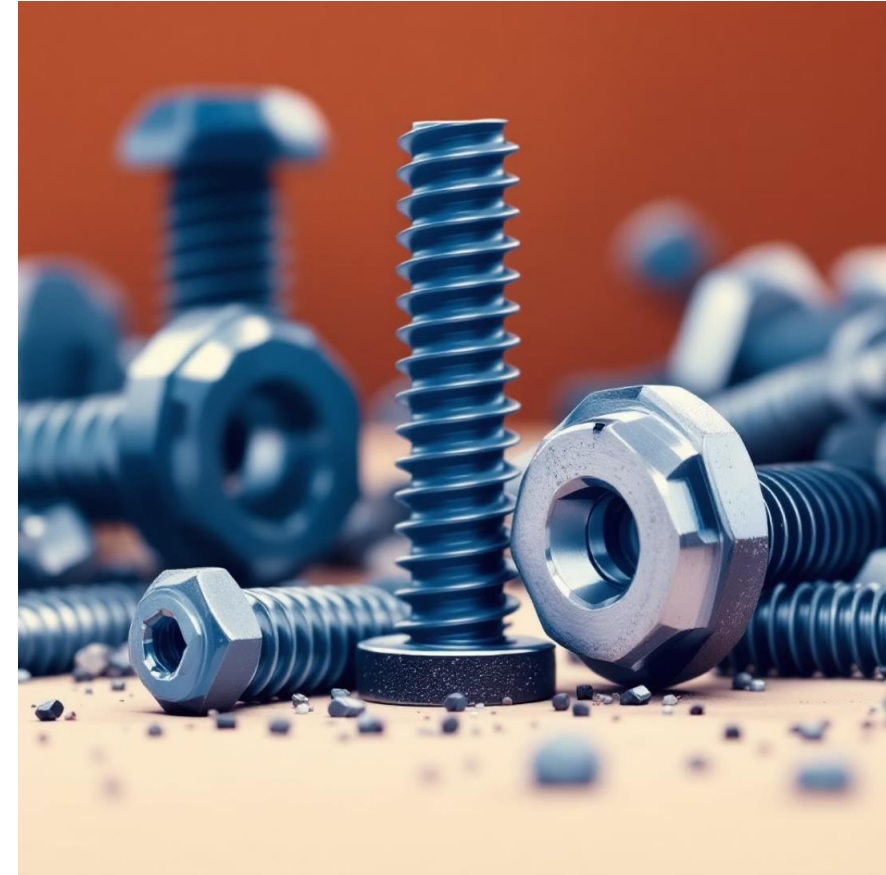

Heavy-duty parts for civil engineering equipment, earthmovers, structural machinery, and specialized construction equipment.

Industrial Equipment

High-durability spares for Textile, Wood, and Metal manufacturing industries with extended service life guarantees.

Engineered for Durability

Unlike competitors limited to single-factory production, we source best-in-class components from certified manufacturers to ensure superior performance and reliability.

High-Tensile Fasteners

Premium bolts, nuts, and screws manufactured to exacting standards in Grades 8.8, 10.9, and 12.9 for critical applications.

Material Excellence

Components available in Stainless Steel (SS), Mild Steel (MS), and Alloy Steel with full material traceability and certification.

OEM-Level Precision

Every spare part engineered for perfect compatibility with original equipment, ensuring seamless integration and optimal performance.

Uncompromising Quality Standards

We are committed to transparency and strict adherence to Indian Industrial Standards, ensuring every component meets the highest benchmarks for safety and performance.

01

Certified Operations

Fully registered with Government of India MSME norms and compliant with all regulatory requirements

02

Rigorous Inspection

Multi-point quality checks for dimensional accuracy and material strength before dispatch

03

GST Compliance

Registration: 06CGBPD1116P1ZN | Enterprise Type: Micro Enterprise (Proprietorship)

04

Documentation

Complete material certificates and test reports provided with every shipment

Strategic Location Advantage

Industrial Hub

Located in Sanjay Colony, Rohtak, offering seamless connectivity to Delhi-NCR and Pan-India logistics networks for efficient distribution.

Modern Warehousing

State-of-the-art inventory management systems ensure rapid order processing, accurate picking, and real-time stock visibility.

Fast Delivery

Capable of handling bulk wholesale orders with speed and safety, backed by reliable transport partnerships.

Why Choose Attri Auto Industries

Trusted Partnership

Long-term relationships built on reliability, transparency, and consistent delivery performance that exceeds expectations.

Competitive Pricing

Direct sourcing and efficient operations enable us to offer premium components at highly competitive wholesale rates.

Deep Inventory

Extensive stock of fast-moving parts ensures immediate availability and eliminates costly production delays.

Just-In-Time Delivery

Precision logistics and order fulfillment systems designed to match your production schedules perfectly.

Quality Assurance

Every component undergoes stringent testing and inspection protocols before leaving our facility.

Expert Support

Technical consultation and after-sales service from experienced professionals who understand your industry.

Our Commitment to Excellence

Zero-Defect Philosophy

We maintain the highest quality standards through rigorous supplier audits and continuous improvement processes.

Customer-Centric Approach

Your success drives our operations. We customize solutions to meet specific requirements and project timelines.

Sustainable Practices

Environmentally responsible sourcing and packaging methods that minimize waste and carbon footprint.

Industries We Serve

- **Automotive Manufacturing**

OEM suppliers, Tier-1 and Tier-2 component manufacturers, assembly plants

- **Construction & Infrastructure**

Heavy equipment operators, civil contractors, project developers

- **Industrial Manufacturing**

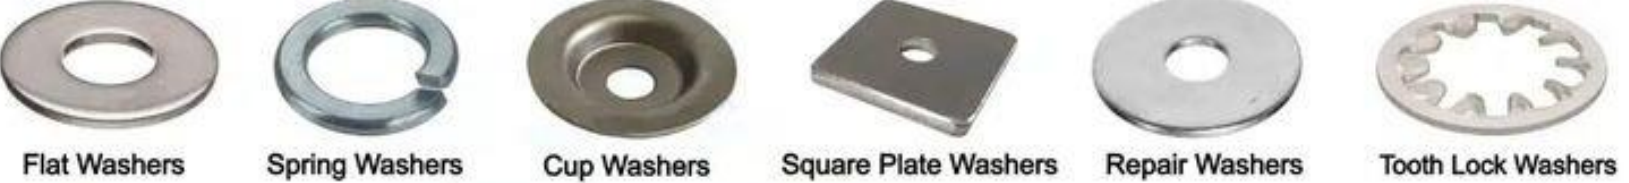

Textile mills, metalworking shops, woodworking facilities

- **Maintenance & Repair**

Fleet operators, service centers, industrial maintenance teams
